Each Bond project listed on the ballot has already been approved by the Loudoun County Board of Supervisors. A vote in support of the bond is not a vote to approve the project.

Rather, a vote to approve the bond gives the Board of Supervisors the authority to take out a credit card to pay for the project and pay the debt back over 30 years.

A "No" vote on the bonds tells the Board of Supervisors to find the money within their current budget to pay for the project instead of using a credit card.

Loudoun County is currently \$2 billion in debt and was warned in April 2023 that its AAA rating is on "Rating Watch Negative due to the county's rising debt burden and potential impacts on its financial flexibility."

Kamala Harris will be Joe Biden's second term. With her as president, expect:

- Open borders and millions more illegal migrants to enter
- Rising costs of energy as Harris shuts down American energy production
- Higher inflation, leading to higher prices for food and household goods
- Increasing crime and drug addiction in our local communities
- Higher taxes as the government redistributes money to pay for free services to illegals
- More war around the world since America will be perceived as weak and ineffective
- Government censorship of free speech and further erosion of our constitutional rights

Tim Kaine has been ineffective as a senator for Virginia. If re-elected, expect:

- Further support for illegal migrant sanctuary cities
- Taxpayer dollars to be directed toward services for illegal aliens rather than for citizens
- Weak border control allowing dangerous illegal criminals to re-enter our country at will
- Reckless spending leading to higher inflation, wage loss, and increasing poverty
- Support for policies that eliminate private health care insurance and drive health care costs up

Subramanyam has proven to be a radical leftist in Richmond. If elected to Congress, expect:

- The government to deny a parent's right to oversee the education of their children
- Laws supporting the ability of boys to play on girls' sports teams and use girls' locker rooms
- Higher taxes to enable government officials to control citizen behavior
- Reduction in criminal penalties for illegal activities and fewer protections for victims & families
- Laws promoting equal outcomes rather than promoting meritocracy and excellence
